STEP LADDER PRICING TABLES

SubHDR Pricing Tables (applicable to CLINs 1001, 2001, 3001, 4001 and 5001).

The unit prices for SubHDR Replacement Radome Kits are listed in Table 1. Following issuance of a contract modification to exercise the options for CLINs 1001, 2001, 3001, 4001, and 5001 the Government may identify additional requirements for SubHDR Replacement Radome Kits. To meet these requirements, the Government may issue unilateral modifications to procure additional SubHDR Replacement Radome Kits at the unit prices listed in Table 1. The Government shall have the right to procure additional radome kits up to the maximum quantity contained in the table during any option year.

If the Government identifies requirements for additional radome kits within 45 days of the initial option exercise, or within 45 days of issuance of a modification to procure additional SubHDR Replacement Radome Kits, the Government shall receive the benefit of quantity discounts by treating these purchases as combined buys. For example, if a modification was issued for procurement of 6 SubHDR Replacement Radome Kits, and within 45 days another modification was issued for procurement of and additional 6 kits, the Government would combine the order quantities and recalculate the unit pricing based upon a purchase of 12 units.

*NOTES:

1. For Congressional reporting purposes only, the total value of this contract will be based on the summation of 49 units per year multiplied by the corresponding unit price.
2. The Government will require Government Purpose Rights for the following CDRLs :

- A004:
Final design documentation with drawings for the Radome Kit

Final design documentation with drawings for any fixtures that are needed for the assembly/disassembly of the radome kit

A006
