

<b>AMENDMENT OF SOLICITATION/MODIFICATION OF CONTRACT</b>		1. CONTRACT ID CODE	PAGE OF PAGES 1 2
2. AMENDMENT/MODIFICATION NO. 0002	3. EFFECTIVE DATE 18 September 2002	4. REQUISITION/PURCHASE REQ. NO.	5. PROJECT NO. (If applicable)
6. ISSUED BY COMMAND, SPACE AND NAVAL SYSTEMS COMMAND 4301 PACIFIC HIGHWAY SAN DIEGO, CA 92110-3127 ATTN: Robert Connelly, Code 02-21G (858) 537-0321; EMAIL: Robert.Connelly@navy.mil		7. ADMINISTERED BY (If other than Item 6)	CODE S0514A
8. NAME AND ADDRESS OF CONTRACTOR (No., street, country, State and ZIP Code)		(✓)	9A. AMENDMENT OF SOLICITATION NO. N00039-02-R-0007
		X	9B. DATED (SEE ITEM 11) 21 AUGUST 2002
			10A. MODIFICATION OF CONTRACT/ORDER NO. -
			10B. DATED (SEE ITEM 11)
CODE	FACILITY CODE		

**11. THIS ITEM ONLY APPLIES TO AMENDMENTS OF SOLICITATIONS**

The above numbered solicitation is amended as set forth in Item 14. The hour and date specified for receipt of Offers  is extended  is not extended. Offers must acknowledge receipt of this amendment prior to the hour and date specified in the solicitation or as amended by one of the following methods: (a) By completing Items 8 and 15, and returning 1 copies of the amendment; (b) By acknowledging receipt of this amendment on each copy of the offer submitted; or (c) By separate letter or telegram which includes a reference to the solicitation and amendment numbers. FAILURE OF YOUR ACKNOWLEDGMENT TO BE RECEIVED AT THE PLACE DESIGNATED FOR THE RECEIPT OF OFFERS PRIOR TO THE HOUR AND DATE SPECIFIED MAY RESULT IN REJECTION OF YOUR OFFER. If by virtue of this amendment you desire to change an offer already submitted, such change may be made by telegram or letter, provided each telegram or letter makes reference to the solicitation and this amendment, and is received prior to the opening hour and date specified.

12. ACCOUNTING AND APPROPRIATION DATA (If required)  
N/A

**13. THIS ITEM APPLIES ONLY TO MODIFICATIONS OF CONTRACTS/ORDERS.  
IT MODIFIES THE CONTRACT/ORDER NO. AS DESCRIBED IN ITEM 14.**

(✓)	A. THIS CHANGE ORDER IS ISSUED PURSUANT TO: THE CHANGES SET FORTH IN ITEM 14 ARE MADE IN THE CONTRACT ORDER NO. IN ITEM 10A.
	B. THE ABOVE NUMBERED CONTRACT/ORDER IS MODIFIED TO REFLECT THE ADMINISTRATIVE CHANGES (such as changes in paying office, appropriation date, etc.) SET FORTH IN ITEM 14, PURSUANT TO THE AUTHORITY OF FAR 43.103(b).
	C. THIS SUPPLEMENTAL AGREEMENT IS ENTERED INTO PURSUANT TO AUTHORITY OF:
	D. OTHER (Specify type of modification and authority)

E. IMPORTANT: Contractor  is not,  is required to sign this document and return \_\_\_\_\_ copies to the issuing office..

14. DESCRIPTION OF AMENDMENT/MODIFICATION (Organized by UCF section headings, including solicitation/contract subject matter where feasible.)

SEE PAGE 2

Except as provided herein, all terms and conditions of the document referenced in Item 9A or 10A, as heretofore changed, remains unchanged and in full force and effect.

15A. NAME AND TITLE OF SIGNER (Type or print)		16A. NAME AND TITLE OF CONTRACTING OFFICER (Type or print) THOMAS A. KRUZA, III Space and Naval Warfare Systems Command	
15B. CONTRACTOR/OFFEROR  <i>(Signature of person authorized to sign)</i>	15C. DATE SIGNED	16B. UNITED STATES OF AMERICA  BY _____ <i>(Signature of Contracting Officer)</i>	16C. DATE SIGNED

The purpose of this Amendment is to accomplish the following changes to the solicitation:

1. Provide the change pages discussed in Amendment 0001 (i.e. Statement of Work (SOW) and Contract Data Requirements List (CDRL)) incorporating the revisions per the Government's responses to Contractor submitted questions.
2. Provide additional editorial changes to Section L as follows: a) Paragraph 1.1.1 Proposal Content, is revised to add the word "Area" as indicated by the change bar on the revised page 51 attached hereto; and b) Paragraph 1.1.4 Volume 1 Technical, is revised to add the word "Area" as indicated by the change bar on the revised page 52 attached hereto.

The following table identifies the change pages provided by this Amendment:

<b>DOCUMENT</b>	<b>PAGES</b>
Solicitation	51 and 52
Statement of Work	3 and 64
CDRL	Revised in its entirety

Offerors may submit questions concerning, or request clarification of, any aspect of this RFP. All questions should be submitted either via the SPAWAR E-commerce site at: <https://e-commerce.spawar.navy.mil> under the solicitation number N00039-02-R-0007 or via email to Robert Connelly, SPAWAR Code 02-21G, at Robert.Connelly@navy.mil. It is the responsibility of the offerors to ensure that their questions are received no later than two weeks prior to the date proposals are due. Offerors should note that the proposal due date will not be extended solely on the basis of questions received within two weeks of the proposal due date.

No Reference Library is available.

1.01 Receipt of Offers. For the purpose of receiving offers, close of business for this establishment is 3:00 PM local time (PST/PDT).

1.02 Validity of Proposals. Proposals submitted in response to this solicitation shall be valid for 90 days from the solicitation closing date.

### 1.1.1.1.

### 1.1.1.2. 1.1 Proposal Requirements

1.1.1 Proposal Content. Proposals submitted in response to this requirement shall be unclassified and shall consist of two (2) completely separate volumes: Volume I - Technical Area Proposal, and Volume II - Cost Proposal. **Cost data shall be included in Volume II only; under no circumstances shall cost/price data be included elsewhere.** Cover/title pages, table of contents, lists of tables/figures/drawings/data/etc., resumes and the glossary of abbreviations and acronyms shall not count against the page limitations set forth in paragraph 1.1.4 herein. No material in excess of the page limits will be read or evaluated.

### 1.1.2 Format and Organization.

#### (1) Format

- (A) Each volume must be a separate file and contain sufficient information to permit a detailed evaluation. Data previously submitted, if any, will not be used in the evaluation of your response to this Request for Proposal. Previously submitted data shall not be included in your proposal "by reference".
- (B) The offeror's proposal, when printed, shall conform to standard 8 ½" by 11" paper, double-spaced, with 1" minimum margins. Foldouts may be used, but shall be no larger than 11" by 17", shall be printed on one side only, and shall count as two pages.
- (C) The type used shall be no smaller than 10-pitch "pica".

#### (2) Organization

- (A) The proposal shall be organized into the volumes, sections and page limits shown below.
- (B) Pages shall be numbered consecutively within each Section, showing volume, section and page. As an example, page 19 of Section B of Volume I would be numbered I-B-19. Pages in the Cost Volume shall be numbered consecutively. There are no sections in the Cost Volume. As an example, page 62 of the Cost Volume would be numbered "II-62".
- (C) Tables, figures and charts also will be numbered consecutively in each section and volume using the same scheme shown above, with the exception that "Table", "Figure" or "Chart" will precede the number where appropriate.

1.1.3 Cover Letter. The proposal shall be accompanied by a letter of transmittal prepared on the offeror's letterhead stationary and signed by an individual authorized to bind the company to the proposal. The cover letter shall identify all enclosures being transmitted as part of the proposal. The letter shall reference the RFP number and acknowledge that it transmits an offer in response to the RFP. The offeror shall indicate in his cover letter that the proposal is in compliance with each requirement of the RFP. Any exceptions taken to the requirements of the RFP shall be listed in the cover letter.

#### 1.1.4 VOLUME I, Technical Area:

The offeror shall submit a technical proposal to enable the Government to make a thorough evaluation and arrive at a sound determination as to whether or not the offeror will meet the requirements of the Government. To this end, each technical proposal shall be so specific, detailed, and complete as to clearly and fully demonstrate that the prospective contractor has a thorough knowledge and understanding of the requirements and has valid and practical solutions for any technical problems. Statements which paraphrase the specifications or attest that "standard procedures will be employed, etc.," are inadequate. The volume shall be divided into four sections: Section I – Technical Approach; Section II – Program Management; Section III – Past Performance; and, if applicable, Section IV – Small Business Subcontracting Plan. The Technical proposal page limitations are as follows: Section I - 70 single sided pages; Section II – 25 single sided pages; and Section III – 10 single sided pages. The following information shall be furnished:

##### 1.1.4.1 Technical Approach.

1.1.4.1.1 Software/Hardware Maintenance and Systems Engineering. The Offeror shall describe its approach and/or ability to meet the requirements of the SOW as they pertain to the following areas: 1) Approach to performing all of the ISS maintenance phases; 2) Methodology to perform requirements analysis; 3). Methodology or strategy to address design trade-off studies when addressing design areas for each configuration item; 4) Analysis, design and correction plan for each one of the deficiencies and problems outlined in Annex A – Phase 1 and 2 - of the SOW, minimizing impacts on existing HW/SW components; 5) Support and test tools for performance of software/hardware maintenance and system engineering tasks; 6) Data Link system engineering knowledge; including specific Link 22 knowledge; 7) Approach to analysis of potential impacts of solutions on system functions, other than those identified as problems; 8) Resources for planning systems engineering efforts; 9) Methods and/or tools, which will be used to construct the program management plan and determine the necessary resources.

1.1.4.1.2 System Test and Evaluation. The Offeror shall describe its approach and/or ability to meet the requirements of the SOW as they pertain to the following areas: 1) Knowledge of Data Link testing requirements and methodologies; 2) Organization policy for test and evaluation planning; 3) Test approach that addresses activities to be performed, commitments to be made for all test and evaluation efforts including interface with other ISS contractors; 4) Facilities, services, materials and equipment required to test and evaluate the SNC and NRS; 5) Regression testing methodology following system changes; 6) Approach to developing the test configurations.

1.1.4.1.3 Configuration Management/Data Management. The Offeror shall describe its approach and/or ability to meet the requirements of the SOW as they pertain to the following areas: 1) Configuration Management approach; 2) Coordination of configuration baselines and documentation submittals; 3) Strategy to update and maintain the Core documentation listed in Annex C of the SOW; 4) Approach to implementation of a Configuration Management Information System (CMIS) and the approach to management of data; 5) Activities related to Resolution of Problem Change Reports (PCR); 6) Interfacing with other ISS contractors (i.e. MLTT-ISEA).

1.1.4.2 Program Management. The Offeror shall describe its approach and/or ability to meet the requirements of the SOW as they pertain to the following areas: 1) Program organizational approach; 2) Key personnel - Provide resumes, documenting qualifications and experiences, for the Program Manager, Lead Software Engineer and Quality Assurance Manager; 3) An outline of the Program Management Plan including procedures for planning work, controlling cost, measuring performances; 4) Application of IEEE/EIA 12207 standard to SNC and NRS maintenance activities. 5) Program management plan approach and milestones that will meet required delivery schedules; 6) Provide an estimation of the size (i.e. Source Line Of Code) of the modified SNC and NRS Software at completion of phase one (1); 7) Work Breakdown Structure (WBS) presenting the tasks to be performed during the development of the program; 8) Facilities to perform all tasks and functions, including COMSEC custodianship; 9) Quality Program consistent with the ANSI/ASQC 9000 Series (ISO 9000).

1 encompasses the SG (Scenario Generator) CSCI, NRS HWCI and all existing variants of the MS (Media Simulator) CSCI as defined at Paragraph 5.2.6.1 – Table 2 and Annex C – Paragraphs 3.3, 3.4, 3.5 and 3.6.

2 Throughout this SOW, the terms "Contractor" and "ISS-Contractor" refer to the contractor selected for developing and maintaining the NILE products during the ISS Phase, the term "Government" refers to the United States Government (encompassing the NILE Program Management Office and the NILE nations). The term "MLTT-ISEA" refers to the In-Service Engineering Agent-entity (e.g. SSC/NCTSI) contracted by the Government for supporting the overall MLTT maintenance activities out of scope of this Statement Of Work. Figure 1 below provides a high level identification of the areas of the ISS-Contractor responsibilities.

**Figure 1: High-Level Identification of support and test Equipment required for organizational-level maintenance Items**

3 The Contractor is required only to modify and execute verification and test stages of approved changes up to the Test Readiness Reviews (TRR), for the MLTT SNCd (SNC diamond) CSCI and MLTT MS CSCI variants of SNC and MS software respectively. A third party (e.g. MLTT-ISEA) will perform the qualification phase of a change at MLTT maintenance center with the support of the ISS-Contractor. This effective qualification phase may be undertaken a few months after the TRR milestone per Government direction. The Contractor shall<sup>(1)</sup> within 2 days correct any defects in the modified MLTT SNCd or MLTT MS CSCI, identified during the qualification phase.

4 Phase One (1) tasks shall<sup>(1)</sup> include at least items specified in Annex A–Paragraphs 1 and 2 (see Appendix A, Figure 2 for details).

Phase Two (2) tasks shall<sup>(1)</sup> include at least items specified in Annex A–Paragraphs 3 and 4 (see Appendix A, Figure 2 for details).

The Contractor **shall**<sup>(1)</sup> prepare and submit test reports of testing activity results. Two documents **shall**<sup>(2)</sup> be delivered Ten (10) days after CSCI Tests: one for the SNC, one for the NRS, noting that the Scenario Generator and Media Simulator CSCIs are incorporated into the NRS. These will be hard copy amendments of the Acceptance Test Procedures. They **shall**<sup>(3)</sup> provide evidence that the tests were conducted, the results that were obtained, and bear the signatures of the personnel who conducted or witnessed the tests.

The Contractor **shall**<sup>(1)</sup> conduct retests of previously completed testing for which correction of a deficiency or any other modification affects the results of those previously completed tests. The selection of requirements for retesting is a joint Contractor and Government decision, with the Government having the final authority.

## 1.2. Testing Requirements

1 The Contractor **shall**<sup>(1)</sup> perform all necessary testing phases including Computer Software Unit (CSU) testing, CSC Integration testing, System Integration testing, and System Qualification testing to demonstrate to the Government that each individual CSCI and the overall SNC and NRS Systems meet the new requirements derived from the item list in Annex A and requirement items identified in the course of the contract.

2 For the MLTT SNCd and MS CSCIs, the Contractor **shall**<sup>(1)</sup> only perform CSU testing and CSCI qualification testing phases. To fulfill these tasks, the Contractor **shall**<sup>(2)</sup> use the MLTT representative test environment seen as a suite of hardware and software COTS components capable of stimulating all MLTT SNCd and MS external interfaces so that updated SNCd and MS CSCIs can be qualified at ISS-Contractor site and presented for complete integration into the reference Multi-Link Test Tool residing at MLTT-ISEA site. Upon successful completion of CSCI Qualification Tests which **shall**<sup>(3)</sup> be subject to formal approval by the Government (i.e. CSCI acceptance IPT), these two specific components along with their associated test results **shall**<sup>(4)</sup> be formally delivered to the Government who will pass them on to the MLTT-ISEA. The Contractor **shall**<sup>(5)</sup> be available to assist the MLTT-ISEA in conducting System Integration and System Qualification Testing of these two CSCIs and **shall**<sup>(6)</sup> be required to fix any ISS Contractor-cognizant PCRs found on the two CSCIs in the course of these activities (see Appendix C).

3 The table 7-1 below presents the possible sequence of events within a specific development phase.

Key: Item (A) represents SNC CSCI and NRS HWCI/CSCIs, (B) represents MLTT SNCd and MS CSCIs, (I) represents the ISS-Contractor and (II) represents the MLTT-ISEA.
