

TECHNICAL QUESTIONS AND ANSWERS
 SOLICITATION N66001-04-R-0028
 MARKER ASSEMBLIES AND
 ACOUSTIC TRANSPONDER BOTTLES
PART 1

1	Q	Please let us know where we can find the drawing packages referred to in paragraph 7.0 Applicable Documents of the Statement of Work.
	A	<p>Bidders are required to acquire Government Specifications prior to submitting a proposal under this solicitation.</p> <p>To receive these specifications, bidders are required to fill out the "Specifications Request/Assertion", (which is one of the solicitation attachments) and submit it to the Contract Specialist, Betty Chu-Chang via e-mail at betty.chu-chang@navy.mil or via facsimile to 619-553-4464).</p> <p>Bidders will then receive, via certified mail, a compact disk containing the specifications in PDF format.</p>
2	Q	<p>In accordance with this Specification/Assertion we understand that we are not permitted to make <u>copies</u> of any of the material on this disk. This presents a significant challenge to us in the preparation of a proposal as we would like to be able to send out portions of these specifications/drawings to various suppliers in order to obtain price quotes. On past bids, under similar circumstances, we have been permitted to reproduce portions of the package for the purpose of obtaining quotes with the understanding that the recipients cannot make additional copies and must return the provided copies to us for destruction. We would like to obtain you permission to follow this approach for the subject solicitation. You timely response to this request is appreciated</p>
	A	See Amendment #0001.

3	Q	Do you know if there were any changes from the original specification?
	A	Recommend all prospective offerors to read/review the entire solicitation and discard/destroy all previous solicitation and drawings.
4	Q	We would like to have the disk or drawing package sent to us via FED-EX P1 using our FED-EX account. Is this possible?
	A	No. All requesters will receive a compact disk containing the specifications in PDF format via certified mail.
5	Q	I AM WITH SBA 8A PROGRAM . IS IT POSSIBLE TO SET ASIDE FOR SBA 8A PROGRAM?
	A	No. This procurement is for full and open competition.
6	Q	The microcontroller on the schematic of the marker does not match the Bill of Material drawing. One part is not available and the other is freely available. Drawing: MC68HC705B5FN Schematic: MC68HC705B16NCFN Which one is right?
	A	See Amendment #0002
